

# SOLAR RV SYSTEM

## 200W

Solar RV System is the perfect solution for outdoors and emergencies, such as RV, yacht, boat, villa, etc. It can provide green, safe and stable power for your vacation.

### Characteristics

#### High Efficiency

Module enjoys a smaller size and higher efficiency by using super high efficient shingle solar cells.

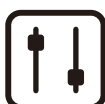

#### Low wind resistance

By using spoiler design, the wind resistance and wind noise have been greatly reduced.

#### Durable

Life time can be over 10 year with IP67 grade waterproof.

#### Good Performance

PMW or MPPT controller can prevent over-charging, over-discharging and short circuit.

### Specification

Junction Box	IP 67, MC4
G.W.	19 kg
Package	Single package
Package Size	1170*470*85 mm

## Configuration

Item		Spec	Option	Qty	Unit
Mono Shingle Solar Panel		100W	Black/Silver	2	pcs
LED Controller		20A12V/24V	PWM/MPPT	1	pcs
Cable with MC4		4mm2*5m		1	set
Cable with battery terminates		4mm2*2m		1	set
Installation Structure	ABS	Corner	Black/White	1	set
Junction Box		Spoiler		1	set
Silicon glue		300ml	Black/White	1	pcs
